Pvt. Rupert A. Phelps Writes from St. Mihiel—Hopes to Be Home Soon.

The following letter was received by Bernis A. Phelps from his brother, Pvt. Rupert A. Phelps, with the A. E. F. in France. It was written at St. Mihiel, France, Dec. 15, and reads thus:

"I have not written to you for a long time, I guess. We have been in this place, St. Mihiel, about two weeks. It is on the Meuse river, south of Verdun. You remember the Americans took it from the Germans (St. Mihiel) on Sept. 12. That was the first drive I was in. We were with the 5th army corps of the 1st American army. Our battalion is not with any division. At present we are with the 9th army corps of the 2d American army. Have been with this corps since about Nov. 24.

"Well, after the St. Mihiel, we went to the north of Verdun into the Argonne-Meuse sector. Here is where the bloodiest part of the drive took place, getting the Germans from the Hesse forest and the Argonne forest and across the Meuse river. This was from Sept. 25 (approximately) to Nov. 11 at 11 a. m., one continual hammer and boom!

## GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY

A Small Bottle Destroys Dandruff and  
Doubles Beauty of Your  
Hair

Within ten minutes after an application of Danderine, you cannot find a single trace of dandruff or falling hair, and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes, but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—your surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.

## NEAR SOLUTION OF DOCK STRIKE

Railroad Administration Offers Appeals to Part of the Men.

AND IS ACCEPTED  
AS BASIS OF TALK

Proposal Provides Increases  
Up to 15 Per Cent and  
Extends 8-Hour Day

New York, March 7.—Union leaders to-day formally considered the overtures made yesterday by the railroad administration to end the strike of their employees among the harbor marine workers. While it was said the proposed new wage and hour schedule was not altogether satisfactory to the strikers, it was accepted as the basis for continuing the negotiations. The administration's proposal, it was said, provides for increases up to 15 per cent and extends the eight-hour day to certain classes of workers.

The employees of the railroad administration approximate 40 per cent of the 16,000 workers on strike and the negotiations so far do not affect the men employed by private owners.

Meanwhile, shipping in the harbor is tied up and there has been a further accumulation of freight along the waterfront. Only a few ferries are in operation.

## DISABLED MEN WIDELY SCATTERED

Difficulty in Locating Injured Soldiers, the Problem of Retaining Authorities.

Washington, D. C., March 7.—The reason that such strenuous efforts are being made to reach disabled men in civil life and acquaint them with the opportunities for vocational training is that most of these disabled men have gotten away from the military authorities and the latter do not know where they are. This may sound strange, but it is the fact for out of the first 6,200 claims filed with the bureau of war risk insurance 68.9 per cent, or 4,279, received their disabilities in camp, only 1.3 per cent in battle, or 83; other sources 10.5 per cent aggregating 672 are listed, and 19.3 per cent, or 1,262 are not stated.

These men have gone out into civil life, many of them discharged months ago, and most of them ignorant of the retraining opportunities which the government provides for them. This is but a sample and small block of the men who must be reached.

The federal board of vocational education at Washington has been charged by Congress with the duty of getting in touch with these disabled men in order to offer them the free vocational training for and placement in wage earning occupations which Congress has provided, and in order to find all of these men and get in touch with them the services of patriotic citizens are requested. The board desires to learn of any disabled man, who, by reason of his injuries is not able to resume his former occupation, and who is having a hard time to "carry on."

## NEWBURY

Rev. Roy Eric Green's Bride Is a Lady from England.

After two years of "watchful waiting," after many "notes" to old England, there arrived in New York harbor last Tuesday evening the steamer Lapland bringing as a part of her cargo a precious package in the shape of an English mailman. Standing at the pier patiently waiting was a Methodist parson, who formerly held sway in Newbury, but who is now looking after the spiritual welfare of a community in Lowell, Vt. He was there for a purpose, and that purpose was to see that this package was safely unloaded and have it with him to a little church around the corner and change her name of Miss Beth J. Owen for the name of Mrs. Roy Eric Green. Six witnesses are willing to swear that she did and that Rev. George Wesley Keeling performed the ceremony. The happy couple arrived in Newbury on the afternoon train Thursday, March 6, and while in town will be the guests of Mrs. Mary F. Bailey.

## Mint Jell

Try Mint Jiffy-Jell with roast lamb or cold meats. It is vastly better than mint sauce. Try Jiffy-Jell desserts with their real fruit flavors in essence form, in vials.
